Research for Arduino project

Research for Arduino Project

Similar projects

Online search with key words

Technical specifications (data/information)

Same - Direct application

Adapt to project needs

E.g. "soil moisture sensor" with "Arduino"

Types of components needed, how they work

E.g. Resistive soil moisture sensor FC28

Use resistive or capacitive type?

E.g. soil moisture sensor

Circuit diagrams, connections

E.g. Capacitive soil moisture sensor

Use Digital or Analog mode?

Sketch (coding)

Use with or without interface module?

Choices?

Videos

1. Start with a simple setup

2. Test this simple circuit and sketch
